

Trees give us yummy apples but also help us build houses. One of these is natural, the other man-made. Can you identify the natural resource? In this edition of *The Compare and Contrast Book* series, we investigate common items around us and how natural materials are made into tools, toys, and even electricity. After exploring dozens of photos, readers will be a pro at identifying ways we use natural resources from plants, animals, and elements below the Earth's surface.

About Arbordale's Editorial Books

Arbordale creates science and math-themed picture books that engage readers to think about the world around them. Readers are immersed in learning as they explore creative language, interactive questions, and bright photography. Whether reading for pleasure or in a classroom, Arbordale books are designed to be fascinating for inquiring children.

The Compare and Contrast Book series asks young readers to think a bit differently about the world around them. Simple statements and questions are paired with vibrant photographs to uncover some popular misconceptions about nature or relay intriguing facts.

The Series is Growing

In addition to *Natural or Man-made?*, *Renewable or Nonrenewable Resources*, *Penguins*, and *Otters: River or Sea?* make their way to bookshelves on September 10th.
