

# ABOUT THE BOOK

Little Woolly leaves her mother behind as she chases a toad down to the river. When the glacial ice breaks, she is swept away in the rumbling, rolling water. Now alone, the mammoth calf struggles to survive. She must sneak past cave lions, bears, saber-toothed cats and humans. Exhausted and afraid, she must even hide from stormy weather as she fights her way back to her herd. How can she find them? Will she ever get back?

### MORE ABOUT ANDREA'S BOOKS

#### LITTLE GRAY'S GREAT MIGRATION

Little Gray loved his lagoon and the humans who came to visit him there. One day, Mama announces that they must swim north to a far-away sea. At first he is sad to leave his home, but Little Gray soon realizes the importance of their journey. What happens along the way and how does Little Gray help his mother? Swim along with Little Gray as he finds the way to this special, food-filled sea.

"Gabriel's polarized palette of light blue sky and white, frothy foam for the surface contrasts starkly against the dark, shadowy depths of the ocean floor."

*-Kirkus Reviews*

"*Little Gray's Great Migration* is the perfect story to inspire, entertain and educate young readers and budding scientists alike."

*-Jennifer Ward, author of I Love Dirt!*
