 - access on computers, iPads, and Android devices
 - ebooks through our apps are cloud-based and/or can be downloaded for travel or when the internet connection is slow
 - usage data synced with computer access

Fun eReader® ebooks

STEM: fictional stories with science or math nonfiction facts woven into the story or narrative nonfiction picture book format engages children and makes learning fun and exciting

STEAM (add the "A" for art): vibrant colors and text-supporting illustrations draw children's attention allowing them to envision things they've never seen

For Creative Minds (FCM): 2-6 pages of engaging back-matter activities support and build on the underlying science or math in the story; allow for parental engagement; and provide educators with time-saving lesson ideas and extensions for science, math, and social studies.

Scientifically Accurate: all books are rigorously vetted for accuracy by experts prior to publication

Print Options: books are simultaneously released in English hardcover and paperback; Spanish paperback; downloadable ebooks in both languages; and in Arbordale's dual-language Fun eReader® enhanced ebook format
