 - For Ages 4-9

What will happen if the glaciers melt?

Chicken Little may have thought the sky was falling but Peter Pika is sure the glaciers are melting and is off to talk to the Mountain Monarch about it. Joined along the way by friends Tammy Ptarmigan, Sally Squirrel, Mandy Marmot, and Harry Hare, they all wonder what will happen to them if the glaciers melt. Where will they live, how will they survive? When Wiley Wolverine tries to trick them, can the Mountain Monarch save them? More importantly, can the Mountain Monarch stop the glaciers from melting?

For Creative Minds

Teachers and Parents will love the educational section, which includes the following educational activities:

- Are Glaciers Melting?
- Water and Glaciers
- Glaciers Around the World: True/False(map, no grid)
- Animal Matching Activity(classification, adaptations)
- Alpine and Arctic Animal Adaptations
- Food for Thought

Plus, 40-60 pages of cross-curricular **Teaching Activities** and three Interactive Reading Comprehension and Math **Quizzes** on *The Glaciers are Melting!* homepage (<http://www.ArbordalePublishing.com/Glaciers.php>) to help parents and educators extend the learning possibilities. Thanks to scientists and educators at NASA/JPL (Jet Propulsion Laboratory) and to Brian Kruse, Lead Formal Educator at the Astronomical Society of the Pacific, for verifying the accuracy of the information in this book.

About the Author and Illustrator

Award-winning author Donna Love brings nature to life for children through her books: *The Glaciers are Melting!*; *Henry the Impatient Heron*; *Loons, Diving Birds of the North*; *Awesome Ospreys, Fishing Birds of the World*; *Animals Count in Grand Canyon National Park*; and *The Totally Out There Guide to Glacier National Park*. To see her books, go to www.donnalove.com. Donna lives in Montana, where her husband is a district ranger on the Lolo National Forest. They have three grown children, and one granddaughter.

Award-winning children's book illustrator Shennen Bersani has over two million copies of her illustrated books cherished and read by families throughout the world. She has been a freelance illustrator since 1989. She works primarily with colored pencils, sometimes using a mixed-media technique of colored pencils, crayons, and paint. Her art delivers a unique blend of realism, heartfelt emotion, love of nature, and life lessons for children of all ages. In addition to *The Glaciers Are Melting!* and *Astro: the Steller Sea Lion* for Arbordale, she has illustrated a number of best selling books, including, *Nana, What's Cancer?*; *Snakes: Long, Longer, Longest*; *Ocean Counting: Odd Numbers* and *My Sister, Alicia May*. Her art also appears in many magazines, newspapers, and publications. Shennen lives with her family near Boston, Massachusetts. For more information, visit her website at <http://www.shennenbersani.com/>.
