“I simply love My Half Day! There that’s the review. It’s that simple. Fun for families to read, but also a great addition to libraries and schools. Teachers, check this out!” - *Armchair Interviews*

“The rhythmic text is enticing, and the vividly creative illustrations could keep students busy for hours as they search for different objects related to odd and even numbers”- *Teaching Children Mathematics, National Council of Teachers of Mathematics*

“Doris Fisher and Dani Sneed have written another wonderful book that makes math FUN for children. Bravo to the authors and illustrator for creating a big, colorful book about a topic that isn’t always so entertaining.”
- *Carmen Bredeson, Award-winning author of 80 nonfiction books for young readers*

“My tall glass of milk was two-thirds gooey paste!”

The *One Odd Day* (odd numbers) and *My Even Day* (even numbers) wacky fun continues as a young boy awakens to find a half-head of hair. After chugging down a glass of milk that’s two-thirds gooey paste, he and his friend are off to camp for a day of fraction fun and an out-of-this world soccer game. The first two books in the series won *Learning Magazine’s* 2008 Teachers’ Choice Awards for Children’s Books. The imaginative illustrations are sure to please young readers as they scour the pages for countless oddities hidden in the art!

Children, parents, and teachers will love the “**For Creative Minds**” educational section that includes:

- We use fractions all the time
- Measuring and fractions in recipes
- Match the fraction to the picture activity
- A pizza party!

There are also “**Related Websites**,” “**Interactive Math and Science Quizzes**” and “**Teaching Activities**” on Arbordale Publishing’s website, www.ArbordalePublishing.com, to help parents and educators expand the learning possibilities!
