

# STEM Fun: Building *The Best Nest*

Some birds build big houses in trees, others find safe spaces for their eggs.  
Now test your building skills by constructing your best nest.

## Materials:

**Think about:** What types of materials are around you? Are your materials bendable or rigid? How are you keeping the pieces in place? Are you weaving or gluing?

---

Your Materials:

## Construction:

**Think about:** Looking at your materials, what would make the best foundation for your nest? What pattern works best for your nest? Is the base pattern different from the sides?

---

Your Construction Plan:

Place a photo of your nest here!
