In Manual Mode, audio is optional. If you wish to hear audio, click English, or Spanish, or the play button on the embedded MP3 Player

The screenshot shows a digital reading interface. At the top left is the logo for 'Sylvan Dell Publishing'. In the center, there is a language selection dropdown menu currently set to 'English Text'. At the top right, there is an embedded MP3 player for 'One Wolf Howls' with options for 'English' and 'Spanish', and a play button. The main content area features a large illustration of three wolves in a snowy forest. A yellow callout box points to the MP3 player controls. At the bottom, there are navigation icons for page navigation and a 'Return to Flow Chart' link.

In addition to language audio selection, our embedded MP3 Player has pause, play and volume controls so you can easily stop the audio to slow things down or discuss the book and then click the MP3 Player's play button to resume the audio reading

Note that in Manual Mode, audio and text are independent of one another so you have four text-audio language options available. Also, it is a continuous reading not locked to page so the user needs to manually advance pages if they wish to keep up with the reading.

Note that in Manual Mode, audio and text are independent of one another so you have four text-audio language options available.

When you select a different language in Manual Mode, the language text immediately changes but the redisplayed page remains the same page number. If the audio is playing during the language selection, it will stop and restart from the beginning of the book (page 1 intro) but in the newly selected language.

Once Auto-Flip Mode is started, the eBook will automatically flip and read each page - advancing and finally stopping on the first or second page of our “For Creative Minds” educational section.

Three wolves bark on a brisk March morning—
danger, danger, humans in sight!

Clicking the pause button causes the eBook to shift to Manual Mode. The pause button becomes a start button and you can resume Auto-Flip by just clicking the [Start Auto-Flip button](#) again. Or, you can stay in Manual Mode for a while and [Advance](#) or [Quick Navigate](#) where ever you like until ready to resume Auto-Flip.

Press Pause Button to pause Auto-flip or shift to Manual Mode

Select Language in Auto-Flip Mode (Text & Audio)

Note that in Auto-Flip Mode, there is no MP3 Player visible

Select a different language at any time, and both the language text and audio reading immediately shift. The page remains the same, but the text is now the new language. The audio reading starts over on that same page but in the new language.
